Python | SQL | Java | Excel | PostgreSQL | MySQL | Power BI | Tableau | Product Analytics | Business Analytics | Product Strategy | Competitive Analysis | Credit Decisioning | Credit Risk Analytics | Lending Intelligence | FinTech | Data Visualization | Machine Learning | Git

Work Experience

Recordent Pvt. Ltd | Product Analyst Intern

Jun 2026 – Present

- Researched the 16-stage MSME lending lifecycle, identifying key gaps across sourcing, underwriting, credit decisioning, and post-disbursement monitoring.
- Analyzed **20+ fintech and lending platforms**, including credit bureaus, Account Aggregator ecosystems, alternate data providers, A/R platforms, and AI-driven lending solutions to benchmark industry practices.
- Developing AI-driven credit decision frameworks for creditworthiness assessment, early warning detection, credit limit management, and borrower risk monitoring.
- Supporting the design of an **AI-driven credit intelligence strategy** through borrower health assessment and alternative data evaluation for MSME lending.

Codekul | Software Developer Intern

Oct 2023 – Jan 2024

- Developed backend modules for **DocITHealth** using **Java**, **Spring Boot**, and **PostgreSQL**.
- Optimized SQL queries and validated REST APIs supporting patient, billing, and reporting workflows.
- Collaborated with cross-functional teams to deliver backend enhancements and technical documentation.

Projects

NexusIQ — Enterprise Decision Intelligence Platform

[Live Demo](#)

- Engineered an enterprise decision intelligence platform integrating Revenue, Customer, Product, Profitability, Forecasting, and KPI modules into a unified executive dashboard.
- Designed ETL pipelines and a PostgreSQL star-schema data warehouse to enable centralized reporting and analysis across **25+ business KPIs**.
- Implemented predictive forecasting models and interactive dashboards to deliver business insights, profitability analysis, and executive decision support.

Competitive Analysis Intelligence System (CAIS)

- Created a competitive intelligence platform for Placement Committee to benchmark **10+ institutes** and support social media and strategic analysis.
- Delivered an interactive dashboard for strategic benchmarking and decision-making.
- Automated benchmarking workflows, reducing manual research effort by 20–25% and improving reporting efficiency.

Positions of Responsibility

Placement Representative & Sector Head – IT | SPOAX Representative

2025 – Present

- Lead placement coordination for the IT sector, mentoring **2 sector coordinators** and coordinating recruiter engagement.
- Serve as **SPOAX Representative** for a cohort of **15 students**, managing placement queries, resume tracking, and interview coordination.
- Coordinate with recruiters, HR teams, and the placement committee to support hiring activities and placement operations.
- Maintained centralized tracking of student resumes, interview progress, and recruiter follow-ups to support placement readiness.
